Walter Frye, Jr., Vice President of the First-Citizens Bank and Chairman of the Greencastle Elk's Cancer Drive, is shown presenting Gifford Black, lodge secretary, a check in the amount of \$500.00 to be donated to the National Cancer Foundation. Mr. Frye says this donation was made possible through special activities and donations by local merchants and donors during the past year.

No Plans Made To Mint Coins

WASHINGTON UPI — It will be a while yet before Americans who like to spend silver dollars have more of the cartwheels to jingle in the pockets of their jeans. Treasury Department officials said Monday they have no more plans to mint more of the coins, which are still in demand as currency in Western states, until the current coin shortage is over.

After requests by Western members, Congress gave the U. S. Mint permission last summer to make 45 million more of the cartwheels, the first authorized since 1935. But officials said the mint is too busy producing other coins now to start making silver dollars.

Hog Business To Be Jan. 7 Topic At Fair Grounds

AL MARLEY

Change In Ages For 4-H Members

4-H activity is picking up speed as various programs get underway. Most of the 4-H clubs have organized and elected officers. Many members have already begun work on their projects for 1965.

One of the most important deadlines in 4-H at this time of year is the January 1st enrollment for all dairy, beef, swine and sheep projects. 4-Hers in these projects will need to complete a special enrollment card and turn it in to the County Extension Office by January 1, 1965.

For 1965 there are two changes that will be of interest to old and new 4-Hers. For years we referred to the 4-H age limits as being "10 to 20 within the year." Now, beginning January 1, 1965, you will be correct if you say "10 to 18 years inclusive within the calendar." This means that a boy or girl whose 10th birthday occurs any time during 1965, even on Dec. 31st, is eligible to enroll. It also means that a boy or girl whose 19th birthday occurs any time during 1965, even on January 1, is eligible to enroll. (The assumption being that he or she was 18 years during part of that day.)

The COLLEGIATE state is being dropped at the state and county level for 1965. This is the rule we have had for years prohibiting 4-Hers to participate in judging, demonstrations,

Feeding and management practices in the hog business will be discussed at a meeting in the Fairgrounds Community Building on January 7, 1965 at 7:15 p. m. According to K. W. Harris, Al Marley will be the discussion leader at the meeting.

The discussion on the swine business will start with the selection of breeding stock and go through the marketing. Topics to be discussed are: 1. Selection of Breeding Stock. 2. Feeding for Improved Litter Size and Heavier Birth Weight. 3. Feeding at Farrowing. 4. Feeding During the Growing Finishing Season. a. Systems b. Choosing a protein supplement c. Pelleted vs. meal rations d. Food Additives e. Limited feeding f. Recent research developments.

Mr. Harris says all swine growers are invited to attend this meeting.

Southern R. R. Strike-Bound

WASHINGTON UPI — The Brotherhood of Locomotive Firemen and Enginemen called a strike today against the Southern Railway. The walkout was ordered at 6 a.m., EST against the 8,100 mile railroad.

J. W. Jennings, union vice president, said the strike was caused by a company move to operate locomotives without locomotive-helpers (firemen). Jennings said in a statement that this violated the union's contract. He declared that both sides had agreed to meet on Jan. 13 to negotiate the problem. The union leader called the railway's action "callous and irresponsible."

The Southern Railway operates a 14-state system, serving such cities as Washington, D.C., Atlanta, Birmingham, New Orleans, Memphis, St. Louis and Louisville.

The line employs approximately 16,000 workers. A union official said the strike call would directly affect 1,200 firemen on the Southern and its subsidiaries, including engineers on the Georgia and Florida Railroad.

Other railway unions normally refuse to work when one of the brotherhoods strikes.

City Council Transacts Business Last Evening

The Common Council of Greencastle met in regular session last night with Mayor Raymond Fisher presiding. Councilmen Collins, Grimes, Poor, Jackson and Eppelheimer were present.

City Engineer Clifford Norton gave his report for the month of November. Seven building permits were issued and one building application referred to the Board of Zoning Appeals. The seven permits covered an estimated cost of \$131,500. One sign permit and one trailer permit referred to the Board of Zoning Appeals. One curb cutting permit was also issued. Held consultation with State Highway representative in reference to proposed widening of Indiana 240 from 10th Street to the Fillmore Road. Consultation with church trustees in reference to zoning violation and letter to city attorney. Involved in field work and investigation in reference to the proposed Shadowlawn Avenue and Jackson Street improvements. Investigation, consultation and recommendations in reference to the Haskell Addition sewers. Total budget appropriation for the month of November amounted to \$150.00.

The claims against the City of Greencastle amounting to \$7881.17 were approved by the Council.

Howard Brackney gave the October and November reports to the Council members. The number of employees in the Department of Water Works totals twelve, including three members of the Board. The payroll for October and November totaled \$3,534.99 each month. Total revenue for the month of October was \$18,545.27. The total revenue for November was \$20,112.75. The total expenses for October amounted to \$21,914.28. The expense for November \$19,426.14. \$9,917.37 was paid on redemption fund during October. \$8,751.41 was paid on the fund during November. New meters and transfers totaled 85 in October as compared with 103 in November. Service calls totaled 72 in October and 53 in November.

In a letter to the Council, Mr. Brackney asked that \$1952.34 be released from the Water Works Depreciation Fund to pay for work done on the high service pump at the pumping station. In another letter, Mr. Brackney asked the Council's approval to pay \$3428.33 for work on the elevated tower. The Council approved both payments.

In a letter to the Council, Concor Townsend and Associates, an engineering consulting firm, asked the council to formally accept the sewers in a portion of the Arlington Heights Second Addition constructed by the Hal Hickman Realty Company. After careful consideration the Council members accepted the work.

Clyde Miller reported to the Council on the Street Department's activities during the month of November. He reported six regular employees with one employee at the city dump. The total payroll for the department amounted to \$3,323.98. Gasoline bought and used was 559 and 530.2 gallons respectively. New parts bought totaled \$93.93. Miscellaneous expense amounted to \$75.65. The amount of stone bought totaled 267/10 tons and the amount of sand bought totaled 164/5 tons. \$4.80 worth of motor oil was purchased. Work performed during the month: Put in catch box by Poor and Sons, hauled 25 loads from the Phi Gam house and had the street sweeper overhauled.

Bomb Explodes

NICOSIA, Cyprus UPI — A plastic bomb exploded Monday outside the garage of a travel agency in the Greek section of this city. There were no injuries.

An Indianapolis girl was fatally injured and eight other persons were hurt in a two-car traffic accident in the intersection of U.S. 36 and Ind. 43, north of Greencastle, at 7:15 Monday evening.

Joanne Snedaker, 17, of 4050 Alden, Indianapolis, died of multiple injuries.

Taken to the Putnam County Hospital were:

Loren Daulton, 49, Georgetown, Illinois, uncle of the dead girl.

Dianne Daulton, 17; Michael Daulton, 13, and Guthrie Gallagher, 10, Indianapolis, all passengers in the car being driven by Mr. Daulton.

Injured in the other car involved were:

Paul Davis, the driver, Bloomington, and James Wilson, of Kentucky.

Carol Freeland, 17, Harris, Tennessee, and Marlene Davis, 19, Paris, Tenn.

The hospital reported this morning that Carol Freeland and James Wilson were in serious condition.

State police said Daulton was driving west on 36 and Davis was driving on Ind. 43.

The accident was investigated by Troopers John Danberry and Don Collins and John Whitaker, Putnam County Coroner.

Farmers' Income School Will Be Held January 5

Arrangements have been completed, according to county extension agent K. W. Harris, for scheduling a County Extension School on "Farmers Income Tax Management", to be held in the Fairground Community Building north of Greencastle at 1:15 p. m. on Tuesday, January 5, 1965.

This school will be conducted by Dick Weigle of the Department of Agricultural Economics at Purdue.

The purpose of this school, according to county extension agent Harris is to help farmers with tax management problems. The 1964 Revenue Act has been described as one of the most important domestic economic measures since World War II. An important feature to every taxpayer was a reduction in tax rates, but tax reform was much broader than a simple rate reduction. Several of the changes affect farmers. Tax rules have been changed for averaging income, capital gains on depreciable real property and standard deductions.

These and other changes will be the subject of the discussion. Also a review of the changes brought about by the 1962 amendments to the Internal Revenue Code, other Federal Income Tax provisions, the Indiana Gross Income Tax and the Indiana Sales and Use Tax will be discussed.

All farmers and others interested are invited to attend and participate in this meeting.

Educator Dies

INDIANAPOLIS UPI — Professor Emeritus Albert L. Kohlmeier, 81, of Indiana University, died Monday night at Methodist Hospital, after an illness of several weeks.

Kohlmeier retired in 1953 after 41 years on the IU staff. From 1926 to 1948 he was chairman of the history department and was widely known as a speaker.

He was a native of Mackey in Gibson County and received

his undergraduate degree at IU in 1908.

War On Air Rifles

TERRE HAUTE UPI — Police here declared war today on air rifle-toting juveniles which authorities said have done \$8,000-\$10,000 damage since Christmas.

Capt. Les Morton estimated the damage and said 50 auto windshield and numerous plate glass windows had been smashed by pellets from "BB" guns and air rifles.

New President

ROME UPI — Giuseppe Saragat, a pro-Western Socialist, was inaugurated today as fifth president of Italy. He pledged "the defense of peace and security."

The 101-gun salute sounded over Rome as Saragat was sworn in before a joint session of the parliament that took a record 21 ballots in 13 days to elect a new chief of state.

The protracted election left the ruling party fragmented, bolstered Communist influence, and gravely damaged the prestige of the country's parliamentary machinery.

Cindy Fuller Bride

Of T. J. Longfellow

Miss Cindy Fuller and Thomas J. Longfellow were married in a Yuletide wedding at 4 o'clock today in Old Bethel Church.

Parents of the bride are Mr. and Mrs. Forst D. Fuller, Albin Lake Road. The bridegroom is the son of Mr. and Mrs. Everett Longfellow, Richmond, Indiana.

The bride wore a satin-trimmed navy knit suit with sweetheart roses. She was attended by her sister, Mrs. John Mayhall. Dr. and Mrs. Mayhall, Juneau, Alaska, are spending Christmas with their parents, the Fullers and Mr. and Mrs. Ward Mayhall. Best man was John Longfellow, brother of the bridegroom. David Haines, stepbrother of the bride, served as usher.

Rev. Elmer Carriker officiated at the candle-light rites in the presence of the immediate families. Poinsettias decorated the altar of the quaint old church.

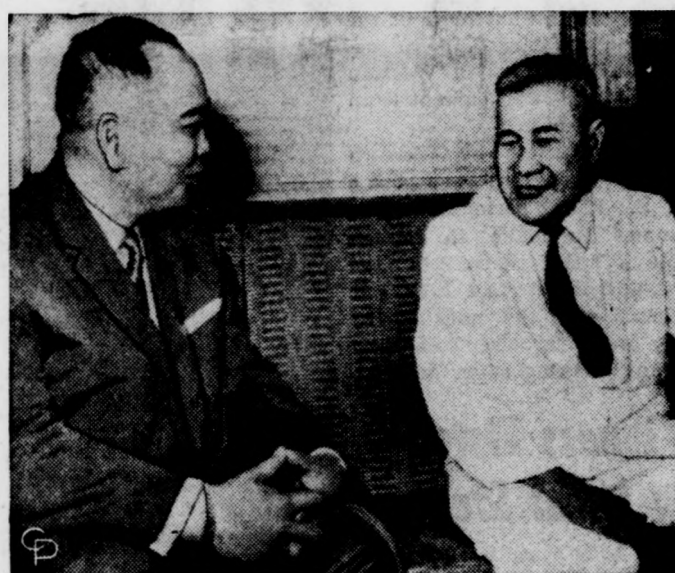

Following the ceremony a wedding supper will be held in the Fuller home where holly, poinsettias and white sweetheart roses will be used to decorate for the festive occasion.

After a short wedding trip, the bride will return to Toledo, Ohio, where she is a member of the fashion coordinating staff for LaSalle's Department Store. Mr. Longfellow will proceed to Ft. Huachuca, Arizona, until March when he will enter Officers Candidate School in Ft. Benning, Georgia.

Club Enjoys Annual Christmas Dinner

Members of the Happier Homes Home Economics Club held their Christmas dinner in the Double Decker dining room. After a delicious turkey dinner, everyone went to the home of Mrs. Roberta Hopkins for a Christmas party.

A short business meeting was held. The highlight of which was the installation of the new officers for 1965. Mrs. Vivian Pickett conducted the beautiful candlelight service. The following officers were installed:

Robbery Staged At City Hall

BUFFALO, N. Y. UPI — Two nattily dressed men held up the treasurer's office at city hall today and escaped with cash and checks unofficially estimated at \$200,000, police said. The city treasurer was struck by one of the thieves.

Police said one man, believed to be armed, walked into the office and demanded money from a cashier.

City Treasurer Melvin Elliott was slugged by one of the bandits and was then taken to a hospital.

Police said a citizen grappled with one bandit outside city hall. The thieves got into a car and a policeman reportedly fired a shot at the fleeing auto.

Faces Sentencing

FORT WAYNE UPI—James Lee Greene, 19, who lived in a church organ loft several days after bolting to freedom from a burglary hearing, will be sentenced in Allen Circuit Court next Monday.

Special Judge J. Byron Hayes postponed sentencing for a presentence investigation the court had ordered was not completed in time for a Dec. 28 court session.

Greene pleaded guilty Dec. 16 to a charge of first-degree burglary. That was the charge he faced when early last year he fled from the courtroom during his arraignment.

After he was captured later in Chicago, it was learned that Greene hid in the organ loft of St. Patrick's Catholic Church here for a few days after his escape.

Fatal Seizure

FORT WAYNE UPI—Deputy Coroner H. Paul Miller ruled Monday that Herman Maxwell, 53, died of a heart attack induced by excitement in fighting a fire in his second-story apartment.

Maxwell was found dead at the foot of a stairway after flames swept his bed Sunday, apparently caused by a cigarette. Miller said Maxwell had a history of heart and lung disease and that his condition was aggravated by the panic of finding his bed in flames.

Syrians Fire On Israeli Tractors

TIBERIAS, Israel UPI—Syrian border troops opened fire today on Israeli tractors sowing fields on the eastern shore of the Sea of Galilee, an Israeli military spokesman said.

Armored tractors carried on the work despite the Syrian firing, the spokesman said. He said U.N. truce observers had authorized the Israelis to sow the land, which was plowed under Syrian fire in October.

"Our forces returned the fire," the spokesman said.

The gunfight with the Syrians followed five clashes Monday along the Israeli-Jordan border.

Long Distance Rates Go Down

INDIANAPOLIS UPI—More than 100 Indiana telephone utilities today announced that long-distance rates on calls between state points will be reduced effective Feb. 1.

The announcement was made by 107 firms with the filing of new tariffs covering the changes with the Indiana Public Ser-

vice Commission, effective the same day as changes are made in rates on interstate calls.

National Pride Involved Twice

By United Press International
No sooner does the United States smooth the ruffled feathers of one small friend that it finds itself involved with another.

Both involve questions of national pride, a not uncommon

occurrence by nature of the global extent of U. S. activities and responsibilities.

President Johnson recently closed over a source of irritation of more than a half century's duration when he promised to renegotiate the Panama Canal treaty with Panama.

But now come the Philippines where two shooting incidents have aroused new demands for renegotiation of the Philippine-U. S. military bases agreement. A special target has been U.S. mick Blair Jr., who came to the Philippines after establish-

ing a successful record as a diplomat in Denmark.

In one incident a 14-year-old Filipino was killed by a shot in the back fired by an American sentry trying to scare away scavengers picking up empty shells and cartridge cases on a target range.

In the other, two Marine Corps guards fired on an outrigger boat which had intruded restricted waters close to an ammunition storage area. One of the two men aboard was killed.

WANT TO BE A MODEL?

A model of good looks and practicality is the reversible "Model Coat" worn by smart homemakers while shopping, visiting, or doing their chores. The garment is completely washable, down to its laundry-proof snap fasteners. And no more worries about replacing lost buttons!

If asked this question, chances are you'd say "Yes." Most women would like to be a model of poise, and preparedness.

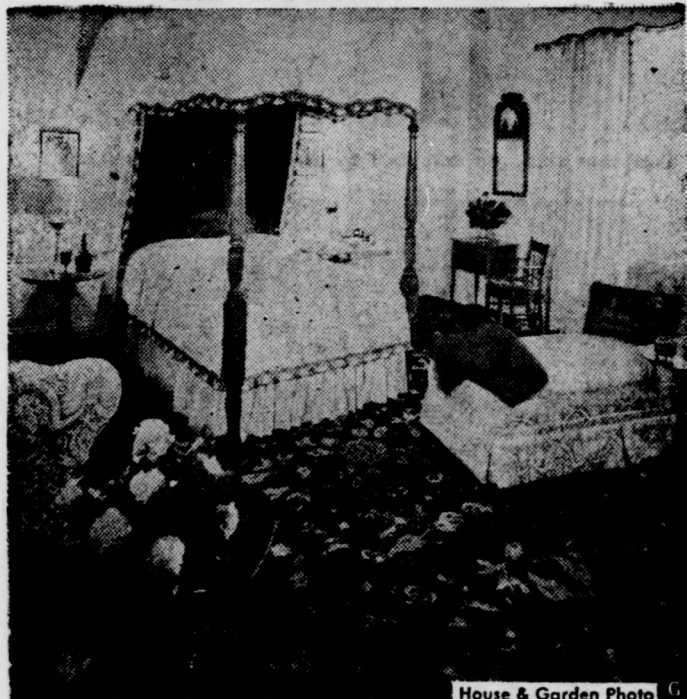

New on the fashion scene for America's homemaking "models" this year is a house coat that fills the bill. Model Coat is reversible. For example, the busy lady may choose to wear the solid side for doing her daily rounds about the house. It's a snap to get into, and fasten up, thanks to snap fasteners down the front.

Roll-up sleeves show that the Model Coat means business—on one side, anyway. But business changes to pleasure when the lady of the house undoes the snap fasteners and reverses the gar-

ment to its "pleasure-side." This side, a striking paisley print, permits her to visit a neighbor for a cup of coffee and some talk, do the week's marketing, entertain luncheon or dinner guests. The self belt gathers the full coat and strikes a note of elegance.

Slash pockets give that care-free, *joie de vivre* tone, completing a costume that serves several purposes and gives milady that "always-prepared" feeling: she's ready for anything from toil to tea! And perhaps she's also ready for a little modeling. What do you think models wear for leisure hours?

NATIONWIDE SEARCH UNDERWAY FOR "HOME STUDY" SUCCESSSES

WANTED: The 75 most successful living American men and women who learned their lessons through home study.

This nationwide search for former students of International Correspondence Schools who have reached the top rung of the success ladder—nationally or locally—is being launched on the eve of the school's 75th anniversary. ICS was founded by a Pennsylvania newspaperman in 1890.

Why this search? ICS has records on most of its former 7,500,000 students, but many of them have moved on to new jobs in other areas since their home study days, and the school has lost track of them.

Do you qualify? Know someone who does? Whoever the 75 are, they will be honored by ICS during its diamond jubilee celebration in 1965, and an ICS scholarship will be awarded in their name to be established to an ambitious, deserving man or woman. Many another distinguished former student will be honored with a lifetime membership in the school's "Successful Alumni Chapter" of his state.

To be eligible a candidate must have attained outstanding success in his field of endeavor; exemplify personal and professional integrity; and have studied with ICS at one time although not necessarily a graduate.

Among the school's alumni are U.S. Commerce Secretary Luther Hodges (business course), U.S. Senator Stuart Symington (electrical engineering and industrial supervision), Arthur Godfrey (mathematics), and Capt. "Ed-die" Rickenbacker (engineering).

Following in the footsteps of these famous Americans today are more than 110,000 ambitious men and women in the U.S. and 50,000 more overseas. They are studying high school subjects, engineering, business, architecture, mechanics, art—just a few of the 236 up-to-date courses offered by ICS.

Board Approves Appropriation

INDIANAPOLIS UPI — The Indiana State Tax Board today approved an appropriation totaling \$125,500 from the cumulative building fund of Westchester Twp. School Corp. in Porter County.

The board overruled objections who contended the proposed sites for an elementary and junior high school were not satisfactory and the new schools should be located elsewhere. Of the total, \$45,000 was for the elementary site and \$80,500 for the junior high site.

"No one questioned the need for the building," chairman Richard Worley of the tax board explained. "It was just a matter of the site. We felt it was up to the school board to select the site unless there was a good solid reason against it." Worley said one of the objections raised was "the irregular shape of the ground." However, he said the Westchester

school board adopted a resolution pledging purchase of two additional acres which would make the junior high school building site more nearly rectangular.

Worley said the Indiana Department of Public Instruction's schoolhouse planning division and the Indiana School Reorganization Commission previously approved the site at the edge of Chesterton.

Viet Generals Hold Conference

SAIGON UPI — Vietnamese generals huddled in the seaside resort of Vung Tau today amid indications of a break-through in the political crisis that has placed the military leaders at odds with the United States. Official sources said the generals at the meeting 40 miles from Saigon, were considering a possible compromise solution to the crisis that stemmed from the military's partial overthrow of the civilian government 10 days ago.

Armed forces commander Lt. Gen. Nguyen Kham summoned the "young turk" generals to the strategy conference while chief of state Phan Khac Suu sought to reconcile U. S. officials in Saigon with the generals and admirals who masterminded the latest coup.

Plans Divorce

MOSCOW UPI — Noted Soviet cellist Mstislav Rostropovich announced he is bringing divorce proceedings against his wife, beautiful Bolshoi Theater soprano Galina Vishnevskaya. The 37-year-old cellist published notice of intention to divorce in Monday's "Evening Moscow" as required by Soviet law.

Bus Crash Fatal

Most of the bus passengers were Hindu pilgrims going to mountain shrines.

Blasts U. S.

CAIRO UPI — The weekly Rose el Youssef issued a tabloid size supplement Monday devoted entirely to articles, interviews and cartoons attacking American policy.

Price Cut

NEW YORK UPI — General Electric Co. announced Monday it had withdrawn the \$10,000 extra charge for a resistor device sold with its 345-kilovolt power circuit breakers.

As the circuit-breaker alone was priced at \$180,000, this is in effect a price cut of 5.5 percent.

Missing Car

PEABODY, Mass. UPI — What is black and white and sought all over.

If you need more clues, it also has a revolving blue and red dome light, a two-way radio and a siren.

The cruiser was taken Monday night from right in front of the city police headquarters where it had been left with its motor running.

FAMOUS PEOPLE WHO DIED IN 1964

It's the Tradition

THE HANDS on the gay clock decoration point to just past midnight, time to serve Swiss New Year Bread. Paper cups, plates and napkins match the amusing clock.

By Joan O'Sullivan

New Year's has almost as many traditions as Christmas. In Greece, for example, it's a big family holiday. Even small children are allowed to stay up to greet the New Year.

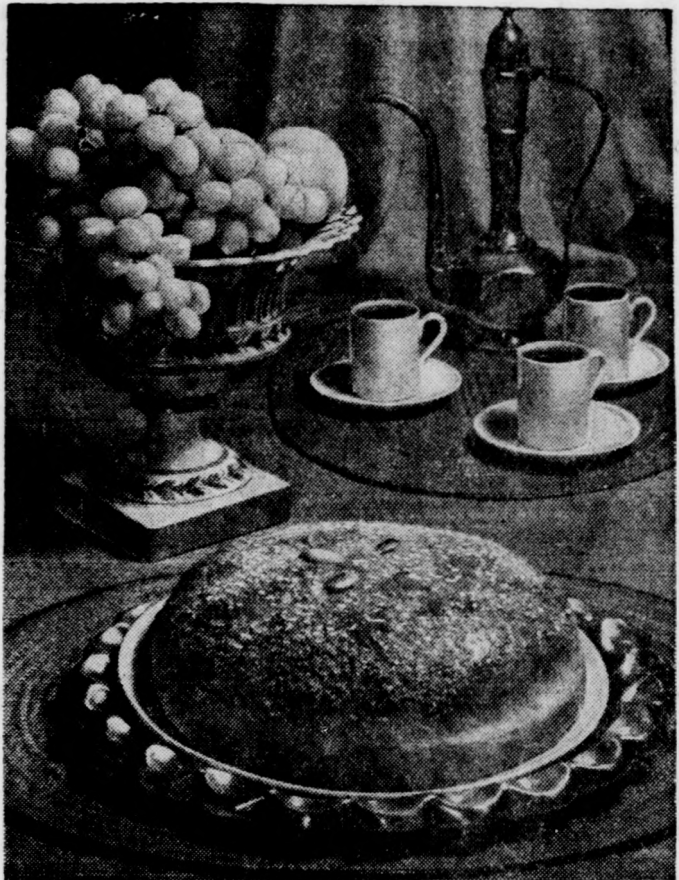

Cutting The Cake
Highlights of the celebration is the cutting of the Vasilopeta, a light and delicious New Year's cake, by the head of the household. A coin is hidden in one piece and, tradition says, the one who gets the coin will have good luck. On New Year's Eve Swiss carolers go from house to house singing and offering good wishes. They're served a special kind of New Year's bread that's unusually delicious.

Recipes for these Greek and Swiss specialties follow.

GREEK NEW YEAR'S CAKE

1 1/2 c. milk
3/4 c. sugar
1 tsp. salt
1 stick margarine
1 tbsp. grated lemon peel
1/2 c. warm water (105-115° F.)
2 pkgs. or cakes yeast, active dry or compressed
3 eggs, beaten
3 1/2 c. unshifted flour (about)
Beaten egg
Sesame seeds
Blanched almonds
Scald milk; mix in sugar, salt, margarine and lemon peel. Cool to lukewarm.

Measure warm water into bowl. Sprinkle or crumble in yeast; stir until dissolved. Stir in lukewarm milk mixture, eggs and half of flour. Beat until smooth. Add enough additional flour to make a soft dough. Turn out on floured board; knead until smooth and elastic, about 8 minutes. Place in greased bowl, turning to grease top of dough. Cover; let rise in warm place, free from draft until doubled in bulk, about 1 1/2 hours. Punch dough down; turn out onto lightly floured board. Divide into two equal pieces. Press dough into two greased 9-inch

LIGHT AND delicious, Greek New Year's Cake holds something special, a coin that brings luck to whomever gets it.

round cake pans. Cover; let rise in warm place, free from draft until doubled in bulk, about 50 minutes.

Brush tops lightly with beaten egg; sprinkle with sesame seeds. Decorate with almonds. Bake at 350° F. about 25 minutes or until done. Cool slightly, then turn out onto wire rack and cool.

Note: A coin may be added when cakes are shaped and placed in pans for final rising.

SWISS

NEW YEAR'S BREAD

1 1/4 c. milk
3/4 c. sugar
1 1/2 sticks margarine
3/4 c. warm water (105-115° F.)
3 pkg. yeast, active dry or compressed
1/2 tsp. ground cardamom
6 3/4 c. unsifted flour (about)
3/4 c. raisins
3/4 c. chopped citron
1 egg, beaten
Scald milk; stir in sugar and margarine. Cool to lukewarm.

Measure warm water into large warm bowl. Sprinkle or crumble in yeast; stir until dissolved. Stir in lukewarm milk mixture, cardamom and half the flour. Beat until smooth.

Add enough additional flour to form soft dough; turn onto lightly floured board and knead until smooth and elastic, about 10 minutes.

Place in greased bowl, turning to grease top of dough. Cover; let rise in warm place, free from draft, until doubled in bulk, about 45 minutes.

Punch dough down. On lightly floured board, knead in raisins and citron. Divide dough into 4 equal portions and shape into oblong loaves. Place on greased baking sheets. Cover; let rise in warm place, free from draft, until doubled in bulk, about 40 minutes.

Brush with beaten egg. Bake at 375° F. for 30 minutes or until done.

Sheinwold On Bridge

Kind Opponents
Stir Suspicion
By Alfred Sheinwold
National Men's Team Champion

I hate to admit it, but there isn't always as much love at the bridge table as in the Big World Outside. Deep down in their hearts, the opponents don't really love you. If they get very busy doing you favors, it's

time to get suspicious.

East won the first trick with the ace of diamonds, cashed the king of hearts and then led the three of hearts through declarer.

I was most considerate of East to go to all the trouble to advertise where the ace of hearts was. Declarer could afford to play the queen of hearts with perfect assurance that it would win the trick.

There was only one trifling thing wrong with this. East happened to be Benito Garozzo, one of the stars of the world-champion Italian bridge team. Declarer was Robert Jordan, of the U. S. team. The hand was part of the 1964 Bridge Olympics, and both teams wanted to win.

Now Jordan is a very likeable man, but he wasn't sure that Garozzo knew it. Hence Jordan thought about the "obvious" play of the queen of hearts.

CONSIDERS CLUBS

If the clubs were about to

break normally, Jordan would not have to lose a club trick. Even if Jordan lost three heart tricks, he would still make his contract; the opponents would get only their three hearts and one diamond.

If East had a sure club trick, it would be fatal to play the queen of hearts. East would then get three hearts, one club, and one diamond. In fact, the more Jordan thought about it the more he was convinced that this was exactly what East had in mind when he played the king of hearts. He wanted to tell declarer that it was absolutely safe to play the queen of hearts.

Having worked it all out, Jordan let the three of hearts ride to dummy's nine. It was then safe to give East his sure club trick, for East could get

only two hearts.

Perhaps this doesn't apply to your bridge games. Your opponents probably like you better than they like themselves. But it's nice to know how the other half lives.

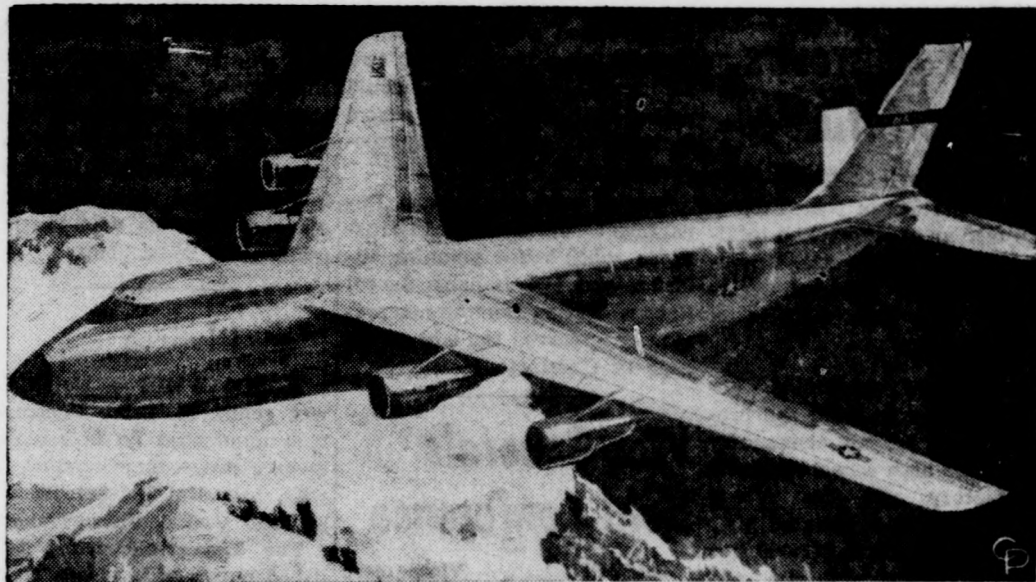

DAILY QUESTION

Partner opens with one club, and the next player passes. You hold: Spade A 5, Heart Q 10 7 6, Diamond K Q 8 6, Club 10 6 4. What do you say?

Answer: Bid one diamond. With two four-card suits, respond in the cheaper suit. If partner has hearts, he can bid one heart at his next turn, and you will still discover the fit.

BOYD'S NEXT

Stephen Boyd stars next in "Fantastic Voyage."

THAT BIG ONE—President Johnson has given the go-ahead for the giant air transport sketched here. It is roughly twice the size of the biggest civilian jet, the Boeing 707, and will carry up to 700 persons or 250,000 pounds of cargo. Range is estimated at 6,500 miles, speed at 550 mph. Developing it will cost \$750 million.

Farm Exports In This Hemisphere Reach New Peak

WASHINGTON UPI — U. S. farm exports to Western Hemisphere countries reached a new peak of \$1,154,000,000 in fiscal 1964, according to the Foreign Agriculture Service.

The total value of U. S. farm products sold to Canada and other countries in the Americas in fiscal 1964 was 15 per cent above a year ago.

Major commodities exported

were: Wheat and flour, \$238 million; corn, \$113 million; fruits and preparations, \$128 million; vegetables and preparations, \$86 million; soybeans, \$79 million; cotton, \$63 million; meat and meat preparations, \$54 million.

Canada was the biggest buyer of U. S. farm products—\$618 million. This included an esti-

mated \$160 million of in-transit shipments placed in bonded storage in Canada and used to finish loading ships moving through the St. Lawrence Seaway. FAS said U. S. farm exports to Canada, excluding in-transit shipments, were 8 per cent of total U. S. farm exports.

FAS said shipments to Canada included. Meat, about half of which was fresh pork, \$31.5 million; corn, \$88.9 million; soybeans, \$76 million; vegetables and preparations, \$60 million; fruits and preparations, \$108.4 million; cotton, \$58.3 million; wheat, \$61.5 million; and large amounts of feeds, fodders, vegetables oils rice and tobacco.

Latin American countries took \$526 million in U. S. farm products in fiscal 1964. FAS

said \$343 million represented commercial sales and \$193 million were under special pro-

grams, mainly Public Law 480, the surplus disposal law.

Next Year Will Not Be Quite Up To 1964

WASHINGTON UPI — "A good year, but not so good as 1964."

That in a nutshell is how President Johnson's top advisers see the economy in 1965.

This kind of outlook, they hasten to add, makes it doubtful that unemployment rolls will be reduced much during the coming year.

Their assessment is popular among government analysts

outside the White House too, although some do not rule out the possibility of either a boom or a recession.

Overall, there is less certainty about the business picture than there was a year ago when the chief question was how far and how fast the economy would advance after the tax cut.

Johnson's Council of Economic Advisers is making its plans

on the assumption that U. S. production will grow about 4 per cent in 1965 compared to about 4 per cent in 1964.

Chairman Gardner Ackley described this rate of expansion as "excellent . . . but not one that has us jumping up for joy." He said a 4 per cent growth is not enough to reduce unemployment, eat into unused plant capacity or expand business profits.

Why the expected slowdown in 1965?

"We've just about had it the lift from the tax cut," was how one highly-placed analyst put it. Although the tax cut's final installment goes into effect in 1965, the withholding rate on wage earners fell the full distance last spring.

Thus the feeling in the council is that little more in the way of a boost to consumer

The Daily Banner, Greencastle, Indiana Tuesday, December 29, 1964 7

spending can be expected from that source. Excise tax reduction, promised by President Johnson for 1965, is counted on to do little more than offset a possible letdown after consumers have made up the auto purchases they missed during the fall strike.

Use a moth ball as the center to wind a hank or yarn into a ball to store.

Use paper clips to hold plastic material instead of basting which will leave pin marks.

Rhinestone buttons and buckles will sparkle if soaked in liquid detergent for about 15 minutes and then rubbed with a flannel cloth.

For a summer treat, try lemon sherbet with chilled canned apple sauce.

Use a quick application of clear nail polish on an envelope flap when normal adhesive doesn't stick.

Hot Dog Is 60

NEW YORK (UPI) — This is the 60th anniversary of the hot dog. It was at the St. Louis Louisiana Exposition in 1904 that a concessionaire first put a wiener in a bun. Last year Americans consumed an estimated 13.6 billion hot dogs.

Vote Near On Halleck, Ford

WASHINGTON UPI — The almost silent struggle for the captaincy of the losers — leadership of the smallest House Republican minority in 18 years — is approaching its climax.

No speeches are being given, no campaign posters printed, no rallies or motorcades mapped out. But every one of the 140

voters who will decide. Jan. 4 between incumbent House GOP Leader Charles A. Halleck and Rep. Gerald R. Ford are acutely aware that an important and vigorous contest is under way.

No one really knows who will win. Many of the Republican congressmen who will vote by secret ballot in a closed meeting will not say which man they are for.

The "silent vote" in the GOP leadership election may be as high as 40, obviously a significant number in a contest where 71 votes assure victory.

3 Gunmen Rob Armored Truck

CHICAGO UPI — Three masked gunmen seized a Brink's armored truck believed carrying more than \$100,000 in a hijacking at a Roman Catholic church Monday night that was strikingly similar to one in New Jersey one week ago.

The holdup men tied up two priests at the Divine Saviour Church in suburban Norridge and waited in ambush for the Brink's truck to come for the proceeds from Sunday's collections. They slugged the guards

and made off with the truck, holding one of the Brink's men as a hostage until abandoning the vehicle a short distance away.

An exact accounting of the loot has not been made, but it was thought to run into six figures.

Exactly a week ago, three holdup men invaded St. Anthony's Church rectory in Paterson, N. J., handcuffed four priests and a sexton, bound two guards and looted a bank truck of more than \$500,000 when it arrived to pick up collection money.

Demo Liberals Planning Purge

WASHINGTON UPI — Democratic liberals sought today to find out how Speaker John W. McCormack feels about their proposed changes in House rules and their attempt to purge two Southerners.

Rep. John A. Blatnik, D-Minn., planned to meet sometime today with McCormack, who returned to Washington Monday night from Massachusetts.

It is the first opportunity the liberals have had to present

their program to McCormack in person.

Blatnik is chairman of the Democratic study group, an organization of liberal Democrats who now claim a majority of the party's House membership.

The group has proposed eight points it wants the 295 House Democrats to adopt when they caucus Saturday, two days before Congress convenes.

Educator Dies

FRANKFORT, UPI — Willard A. Knapp, 79, retired associate dean of the schools of engineering at Purdue University, died Monday.

Knapp, who retired in 1956 after 48 years on the Purdue faculty, died in the health center at Wesley Manor here. He had been in the health center since Saturday, recovering from a cataract operation.

A graduate of the Civil Engineering School at the University of Illinois, Knapp joined the faculty at Purdue in 1908, became assistant dean in 1935 and associate dean in 1940.

The charges were brought by Goldwater campaign worker, Mrs. Alex Siden, who claimed Weston ripped the U. S. flag from its staff.

Weston had denied her claim. He told police the flag fell on him as he paused in front of the Goldwater headquarters to light a cigarette.

Cloverdale School News

On Monday, December 7, the Cloverdale Chapter of the National Junior Classical League (JCL) held their formal initiation at 7:30 p.m. in the school gymnasium to initiate the servi (slaves) into full membership.

The initiates were: Sheila Anderson, John Berry, Rosenna Bothwell, Gary Cline, Terri Halton, Mickey Hamblen, Lucille Hunsicker, Susie Jent, Diana Meyers, Hobe Nickerson, Don Perry, Annetta Routt, Vivian Whitaker.

The ceremonies were performed by the Spirit of the Classics, Norman Hoffa; Spirit of Latin I, Sharon Cromwell; Spirit of Latin II, Marcia Routt; Spirit of Latin III, Diana Lewis; and Spirit of Latin IV, Kit Coffin. Initiates presented apples as sacrifice.

After the membership cards and pins were presented, refreshments were served to members and guests.

Details Sought In Gun Cache

MUNCIE, Ind. UPI — Officials of various government agencies pressed for more de-

tails today in the case of Wallace R. Chrich, 27, accused of having an arsenal of about 100 machine guns in his garage.

Chrich was arrested Dec. 23, after agents of the Alcohol and Tobacco Division of the Treasury Department raided his home and found the weapons in his possession. He was charged with violation of the Federal Firearms Act.

There was speculation that the arms were destined for a right-wing organization in Ohio, but authorities refused to confirm or deny the report.

Chrich, an employee of a General Motors Corp. plant in Muncie, said he was selling the guns for "an-out-of-town man".

He said he did not realize he was breaking the law.

The guns apparently came from government surplus stocks and were sold as scrap after being made "inoperative" by pouring gasoline on the weapons, and setting fire to them. This technique hopefully wraps the weapons.

'Phantom' Makes Yuletide Visit

FRANKLIN, UPI — The "phantom brakeman" made his semi-annual holiday visit to the Earl E. Smith home.

The Daily Banner, Greencastle, Indiana

Tuesday, December 29, 1964

Every Christmas and every Easter, an unidentified railroad hops off a Pennsylvania Railroad train just long enough to leave presents for Brian Smith, 4, and his sister, Cindy, 2, whose backyard abuts the tracks.

Brian started waving to the crewmen three years ago when he was barely able to toddle. The first gift was delivered shortly thereafter.

When Brian was joined by his little sister the mystery benefactor began leaving two presents.

This year, Brian got a toy truck and Cindy a toy poodle. The brakeman doesn't even know the children's names. And Mr. and Mrs. Smith said they have tried to find out the friendly trainman's name but failed.

All-Star Hockey Game To Be Held Jan. 26 At Toledo

FORT WAYNE, Ind. UPI — The International Hockey League decided at a meeting here Monday to hold its annual all-star game Jan. 26 in Toledo, Ohio.

Kenneth Wilson, Toledo owner and general manager, said although the club was suffering financial ills it would be able to finish the season after industrial leaders bought stock.

Toledo, by virtue of its championship last year, will play a team of players from the rest of the league.

In other matters, the IHL Board of Directors set up a governor's cup for the outstanding defenseman to match existing awards for scoring and goal tending.

Will Consider

SEATTLE UPI — Pacific Coast League President Dewey Soriano said Monday the PCL will take under consideration at a meeting next month the transfer of Seattle ownership from the Boston Red Sox to the Los Angeles Angels.

Winning Counts

KANSAS CITY, Mo. UPI — Three active and three allied members have joined the National Collegiate Athletic Association.

Membership Up

ROCHESTER, N. Y. UPI — Eight coaches, who appear to advocate that winning isn't everything but the only thing, have been nominated for the 1964 major college coach of the year award by fellow members of the American Football Coaches Association.

On the list, which includes Paul (Bear) Bryant of Alabama and Ara Parseghian of Notre Dame, there's a conspicuous absence of losing coaches as the nominees won a aggregate 68 games while dropping only 11.

BACK THE TIGER CUBS AT LAFAYETTE

All-Americans Perform Well In Holiday Tourneys

Dave Stallworth and Bill Bradley continue to perform like all Americans in college basketball tournament play, but don't overlook such potential candidates as Cazzie Russell, Lou Hudson and Gail Goodrich.

Stallworth added in 12 field goals and pumped five free throws for 29 points as Wichita, the nation's No. 2 team, defeated previously unbeaten Villanova 86-74 Monday night in the Quaker City tournament at Philadelphia. The Shockers face perfect record St. Joseph's tonight for the title. St. Joe knocked over eight-ranked Illinois 75-71 with the help of Cliff Anderson's 17 points.

Bradley, who is expected to give up pro ball for his Rhodes scholarship, scored 36 points in Princeton's 79-69 first round Holiday Festival triumph over Syracuse. The Tigers now have the task of felling No. 1 Michigan in Wednesday's semifinal round at New York.

Michigan toppled Manhattan 90-77 on Russell's dazzling 36-point performance at the Wolverine star waged an expected battle with Bradley for most valuable player honors.

Manager, Fighter Take Big Gamble

NEW YORK UPI — Brawny George Chuvalo, Canadian heavyweight champion, and manager Irvin Ungerman are taking the big gamble and "blowing more than \$10,000" on training for a fight that might make George challenger for the world crown.

Ungerman of Toronto, in New York briefly today, explained "Chuvalo's fight at Madison Square Garden with Floyd Patterson isn't scheduled till Feb. 1; but he's already been training for the past two weeks."

Pettit Back In Action

ST. LOUIS UPI — The St. Louis Hawks were heartened today by the announcement that Bob Pettit would return to the lineup Wednesday night against the San Francisco Warriors.

Argument To Be Settled New Year's Day In Bowl Games

The Southeastern and Southwest conferences, which are constantly engaged in a verbal battle regarding football superiority, display their prime wares on New Year's Day in three of the four major bowl games—with the SEC already holding the upper hand.

The SEC sends national champion Alabama in quest of its second perfect season in four years in Miami's Orange Bowl and perennial powerhouse Louisiana State into the Sugar Bowl, where it meets Syracuse.

Texas, national champion last year and the runnerup in the SWC, opposes 'Bama in the Orange classic, and second-ranked Arkansas, southwest champion, tackles Nebraska in the Cotton Bowl at Dallas.

Mighty Michigan, Big Ten kingpin, tangles with Oregon State in the Rose Bowl to complete the New Year's Day picture.

The SEC took the initiative in this intersectional rivalry when Georgia whipped Texas Tech, 7-0, in the Sun Bowl at El Paso, Tex., Saturday in one of two bowl games played that day.

The North toppled the South squad, 10-6, in the 27th annual Blue-Gray game in the other bowl contest.

Silkes Named Rookie

NORWALK, Conn. UPI — Golf Digest magazine has selected Dick Sikes of Springdale, Ark., 1964's pro golf rookie of the year. Sikes won \$23,353.09 while competing in less than half of the official PGA tournaments in order to complete his studies at the University of Arkansas.

GOOD OLD DAYS BACK

In the "good old days," the player-piano was truly a mainstay; you'd find one in nearly every living room, dance hall, department store, lunch room, amusement park, hotel, club and speakeasy.

After a silence of more than 30 years, the player-piano is making a fun-filled comeback in an age dedicated to electronic marvels. Music authorities agree that the unexpected success of the player is tied to the revival of old-fashioned family "togetherness."

More and more families are discovering that a player serves as a lively centerpiece of entertainment in which every member actively participates—no matter what his previous musical training.

Modern player-pianos, such as the Pianola, although more compact and decorative than the bulky uprights and grands of yesterday, still operate on the same principle. To activate the keys, air is sucked through perforations in a revolving paper roll into a vacuum chamber. Most of today's player-pianos can be either foot driven for self-expression or electrically powered as desired.

Perhaps the most enthusiastic modern virtuoso is the elderly, socially prominent woman who owns three player pianos (one for each of her homes) and has a collection of nearly 1,000 music rolls. No doubt she's developed a great foot for music!

Rookie Of The Year

NEW YORK UPI — Half back Charley Taylor, who finished among the top 10 leaders in both pass receiving and rushing, today was chosen the rookie of the year in the National Football League by United Press International.

Hull Threatens To Break Record

MONTREAL UPI — Bobby Hull, the Chicago blond bomber who is threatening to shatter National Hockey League scoring records, was held in check as a goal-scorer last week, but turned playmaker to maintain his solid lead atop the NHL scoring race.

Toronto defenseman Bobby Baun is the league badman with 99 minutes in penalties.

Celts Go To Victory Over Lakers 133 To 112

Pro basketball antagonists who claim that defense is a lost art in the National Basketball Association haven't been watching the Boston Celtics lately.

The high-flying Celts, who have played superb defensive ball all season, reached a high-water mark Monday night as they held the Los Angeles Lak-

ers' high-scoring duo of Jerry West and Elgin Baylor to a combined total of 16 points in posting a 133-112 victory over the Western Division leaders.

In other NBA action, the Cincinnati Royals downed the San Francisco Warriors, 113-108, and the Detroit Pistons toppled the New York Knickerbockers 123-117.

Tom Sanders, John Havlicek and K. C. Jones were the standouts on defense for Boston. Sanders, playing head-to-head with Baylor, held the Laker ace to only four points while Havlicek and Jones switched off on West and limited him to only 12 tallies.

CENTENNIAL SCRAPBOOK

The War for the Union 1861-65 in Pictures

No. 487 The night of Dec. 20, 1864, Lt. Gen. W. J. Hardee telegraphed to President Jefferson Davis at Richmond, "On the 19th the enemy forced a landing so near my communications that to save the garrison it became necessary to give up the city (Savannah). Its evacuation was successfully accomplished."

Next morning, John W. Geary's Second Division, XX Corps, on Sherman's left wing, led the Union forces into the city. The national colors were raised again at the Custom House. W. T. Sherman telegraphed President Lincoln in Washington, "I beg to present you as a Christmas gift, the city of Savannah, with 150 guns and plenty of ammunition and also about 25,000 bales of cotton."

The president responded, "Many, many thanks for your Christmas gift. . . . It is indeed a great success. . . . But what next?"

Next for Sherman's men, who had been moving continuously for weeks under such difficulties as those shown here [1], was more of the same. Grant had ordered Sherman: "Establish a base on the seacoast, fortify . . . and so threaten the interior that the militia of the South will have to be kept home. With the balance of your command come here with all dispatch."

That meant precede northward through the Carolinas to link up with Grant in Virginia. The curtain was rising on the final act of the great drama; it would be over early in 1865.

Dr. Hodge

Mrs. Cudworth

Enthusiastic participation in 4-H has earned two former Indiana 4-Hers alumni recognition awards. Both Dean Hodge, a research specialist for Kern County Land Company in California, and Mrs. Ora Cudworth, a home economics teacher from Rushville, received a burnished copper plaque donated by the Olin Mathieson Chemical Corporation.

Although he became a California resident more than two years ago, Hodge's 4-H background lies in the Hoosier State. During his 11-year club membership he participated in the swine, dairy, corn and garden projects, earned a state award to the National 4-H Club Congress and received a Purdue University Board of Trustees scholarship based on his club record.

Livestock Expert

His 4-H activities continued after his club membership ceased. He served as the Tippecanoe County 4-H Club agent, judged swine, sheep and beef cattle shows and helped train livestock judging teams. Hodge also was active in the Purdue University Club, Indiana Short-horn and Polled Shorthorn Association and the Indiana Livestock Men's Tour in Iowa.

Before taking a position with Kern, Hodge was assistant professor of animal science at Purdue University. He earned his doctorate at Purdue where he

majoring in animal nutrition. He now lives with his wife and three children in Bakersfield, Calif.

Hodge explained that his 4-H experiences have "intensified his appreciation of devoted parents, a Christian home, capable teachers and the privilege of enjoying freedoms often taken for granted."

Teacher-Leader

A career in teaching home economics and eight years work as a club leader reflect Ruth Cudworth's continuing interest in 4-H. She also has judged 4-H exhibits, given home demonstrations and taught open classes at county fairs.

As a six-year club member she emphasized the clothing, food preparation and baking projects. She also represented her club in county demonstrations, judging and dress revues, at the 4-H Round-Up and the 4-H Junior Leader Camp.

In addition to 4-H work Mrs. Cudworth is active in the PTA, chairman of the Rush County home economics teachers group, teaches several church classes, and helps manage the school cafeteria.

Mrs. Cudworth explained that she gained satisfaction from 4-H work because she realized the club helps strengthen family unity. She also said she enjoyed being around busy 4-H members, "happy people with something constructive to do."

MAKES IT DOWN—A fire-fighting helicopter hovers overhead as the controversial F-111, formerly the TFX, lands at Fort Worth, Tex., after about half of a scheduled one-hour test flight. The pilot came down when he discovered the wing flaps weren't working. The 1,650-mph. plane is both fighter and bomber, has been termed world's best warplane.

"My advice, sir-get DE-ICER!"

Gas line freeze can happen to anybody, but when you're young and in a hurry, it's a disaster. Here's what gas line freeze is. Moisture collects in a gas line. It freezes. The flow of fuel to the engine of the car is choked off, frozen tight. You're stopped cold. Luckily, there's a simple solution to this wintertime worry. Be a steady user of either American Regular Gasoline or American Super-Premium. They contain the real thing—DE-ICER—to prevent gas line freeze. No extra cost. No wonder Standard Oil Dealers say: "My advice, sir-get DE-ICER!"

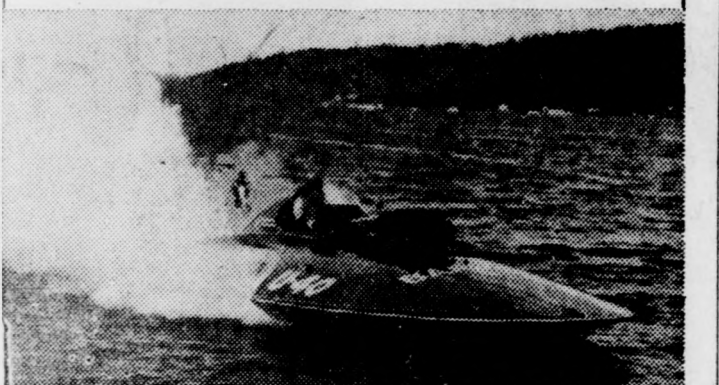

You expect more from Standard and you get it

"DE-ICER" is the trademark for Standard's gas line anti-freeze additive. STANDARD OIL DIVISION AMERICAN OIL COMPANY ©1964, THE AMERICAN OIL COMPANY, CHICAGO, ILL.

Hydroplaning at 108 mph

Ron Musson, right, of Seattle, Washington, driver of Miss Bardahl, accepts the Martini & Rossi Trophies for Unlimited Hydroplane competition for 1964 and for the fastest heat in the Gold Cup Race at Detroit, from James H. Jost, left, of River Grove, Ill., president of the American Power Boat Association. Looking on is Lee Schoenheit of Detroit, Mich., vice president of the APBA. The top photo shows Ron Musson in action.

ROCHESTER, NEW YORK — In the increasingly popular sport of hydroplane racing, the boat to beat remains the speedy "Miss Bardahl." For the second year running, Ole Bardahl of Seattle was awarded two Martini & Rossi Trophies for his boat's achievements. At the convention here of the American Power Boat Association, the hard-to-catch hydroplane took

the Martini & Rossi Unlimited Hydroplane High Point Trophy for 1964, and the M & R Trophy for the fastest heat in the Gold Cup Race which was held in Detroit last summer. Miss Bardahl took the same two trophies in last year's competition.

In taking the fastest heat award, Miss Bardahl, driven by Ron Musson, chalked up a speed of 108.104 miles an hour.

Ice Jams New Flooding Threat

SAN FRANCISCO UPI — Two large ice jams in the Yakima River brought warnings today of possible new flooding in the state of Washington.

Daredevil civilian and armed forces helicopter pilots were standing by a break in the weather to begin mercy food and medicine flights to 500

mountain residents isolated near the California - Oregon border.

The Christmas week deluge and subsequent snow storm killed at least 41 persons in the state area and caused damage estimated at \$350 million.

The mountain inhabitants were cut off by the devastating floods early last week and then blasted by a swirling snow-storm during the weekend. The pilots attempted to reach them Monday but were thwarted by the fury of the storm in the

tricky, dangerous canyons.

"The pilots are fantastic," said one civil defense officer. "They are all familiar with the terrain and fly blind, but they can't get down into the canyons."

Warnings of new flood dangers in Washington were issued by the Bureau of Reclamation because of two large ice jams — including one three miles long — in the Yakima River above the Roza Dam.

Cyril Lentz, superintendent of the Yakima reclamation project, said there originally

were three jams but that one broke loose and joined the second to form the three-mile obstruction which already had flooded a state Highway Department maintenance shed and forced residents to leave a nearby state building.

The other jam, one mile in length, is four miles downstream from the larger one. Lentz warned of the possibility that if the jams broke suddenly, the logs and debris carried with the rushing water and ice could endanger Roza Dam.

Lentz said lower temperatures forecast for the area, ex-

pected to reach 17 degrees, probably would keep the ice jams from breaking up. The gates of Roza Dam were opened wide to permit as much water as possible to flow past.

High administration sources said an immediate result could be the fastest East Coast rail service in the history in 1965.

These sources said Johnson probably will unveil the three-year research and test program in his State of the Union message to Congress next Monday.

The long-range program will call for an initial \$20 million outlay in the first year, a figure reported to have been approved by Johnson in his forthcoming budget.

through tubes or on electronically guided cars within 15 years.

If Congress approves that amount, \$10 million would be spent for research and development of new ground transportation systems, \$8 million for demonstration projects and \$2 million for statistical studies.

One purpose of the studies will be to determine whether Americans actually want to travel at a speed of 200 miles an hour on the ground, or whether they would fear such fast rail travel.

TASTY WAY TO WOO A VALENTINE

On Valentine's Day, follow the sure route to a man's heart; woo him with a man-sized main-dish pie. Beef and kidney, veal and mushroom are hearty pie combinations with male appeal. Top with flaky pastry, flavor with an irresistible accent of wine and whiskey. Gay paper hearts decorating cocktail glasses set off appetizer drinks in style; this year, for cocktails, Cupid prefers Rob Roys.

ROB ROYS

1 pint Scotch Whisky
6 ounces (3/4 cup) sweet vermouth
Generous dash bitters

Stir with cracked ice, strain and serve with red maraschino cherries for 8 Valentine toasts.

VALENTINE STEAK AND KIDNEY PIE

Filling

1 1/2 pound beef kidneys
1 1/2-2 pounds round or flank steak, cut in 1 1/2" cubes
1/2 cup flour
1 teaspoon salt, 1/4 teaspoon pepper
3/4 cup drippings, shortening or oil

2 medium onions, chopped
2 tablespoons parsley
Pinch thyme, cayenne
1 tablespoon flour
1 bouillon cube dissolved in one cup boiling water
1/2 cup red wine

Prepare flaky pastry in advance from your favorite recipe, or use a prepared mix. Chill until required.

Wipe and split kidneys and remove cores, skin and any membrane. Toss these and the cut-up meat in a paper bag with flour, salt and pepper. Brown steak in hot fat, then saute kidneys with it for a few minutes. Remove to heart-shaped baking dish that holds 1 quart. Add onions to pan with more shortening if needed, and brown lightly. Then add herbs and flour and brown well. Add bouillon and wine and cook 2-3 minutes, until thickened. Taste to correct seasoning, then pour over meat and kidneys.

Roll out the pastry 1 1/2" wider than top of pie dish. Cut a 1/2" strip around the outside of rolled out pastry, trimming ragged edge. Lay large piece of pastry over meat filling to form top crust. Roll edges under, pressing tightly to outside top edge of pan. Brush pastry edge with water. Twist the thin strip into a rope, and lay around edge of pie, pressing into other crust. Cut cupid's arrow in the center of the pie, to let steam escape.

To glaze pastry: beat one egg with 1/4 teaspoon salt and brush liberally over pastry top. Bake at 425° F, 30-40 minutes. Cover with a sheet of aluminum foil, lower oven temperature to 375° F and bake another hour. Re-glaze, if necessary, before finally removing from oven. Fill in the arrow with Creamy Horseradish Sauce. Serves 6.

Speaking of YOUR HEALTH...

By LESTER L. COLEMAN, M.D.

Readers Are Asking . . .

What does a doctor learn by tapping on the chest and back? This important part of a physical examination is called "percussion."

A sharp tap on the chest wall produces a characteristic sound. The sound varies from a dull thud over the heart to a clear, resonant note over the air-filled lungs.

When the lungs are infected and pneumonia is present, a flat note is produced instead of the normal clear sound.

Physicians become so adept at percussion that they can actually "feel" the sound as well as hear it. They may even get a fairly accurate idea of the size and shape of the heart by this valuable diagnostic technique.

A percussion examination contributes important information for determining the exact condition of a patient.

What does a physician hear when he listens to the chest? This procedure, called "auscultation," reveals to the trained ear the sounds that signify health or disease.

In normal health, the sound of breathing is clear and unobstructed. Patients with asthma may produce breathing sounds described as "pipes, squeaks, and groans."

Various forms of heart illness can be identified with remarkable accuracy by the sounds heard through the stethoscope. The sensitive, listening ears of the doctor can readily detect changes in the normal heart-

beat, and can even recognize slight variations in pitch and loudness.

Heart murmurs can be identified with such accuracy that the doctor a good "picture" of the inner architecture of the heart.

Auscultation, like percussion, gives the physician valuable information for making an accurate diagnosis. Both techniques are also used for investigating abdominal conditions.

Laboratory tests and other studies are often used to support or confirm the clinical evidence offered by these simple but vitally important aspects of a general physical examination.

What should be done when a child swallows a pin or some other small object? In most instances small foreign bodies travel safely through the esophagus, the stomach, the small and large intestines and are finally excreted through normal body processes.

But it is always a wise precaution to consult a doctor for direction and reassurance, especially if a sharp object was swallowed, and if there are any signs of pain, or difficulty in swallowing or breathing.

Pieces of metal or glass can be seen by X-ray and followed through the body, to make sure that they are safely eliminated. Children should be carefully observed for any unusual symptoms for a few days after swallowing a foreign body.

General To Cut Rates On Calls

General Telephone Company of Indiana today announced reduced rates on telephone calls within the state. This included a special rate of 40 cents or less for three minutes on nighttime and Sunday calls.

General and 106 of the state's other telephone companies filed new tariffs covering the changes with the Public Service Commission of Indiana to be effective February 1. This is the same day charges on long distance calls crossing state lines also will be reduced.

The reductions stem from lower rates to be applied for evening, weekend, and special night rates established under the new tariff.

Hoosiers will save an estimated \$2½ million yearly as a result of the intrastate (in Indiana) and interstate (out of Indiana) reductions.

The special nighttime rate will become effective after 8 p. m. instead of 9 p. m. as at present and be offered all day on Sundays. This will allow three minutes of station-to-station conversation between telephones anywhere in Indiana for 40 cents or less after 8 p. m. and all day Sunday.

Also announced were reductions in evening rates (from 6-8 p. m.) which will also apply all day on Saturdays. This will result in reductions of as much as 25 cents for the initial three minutes on some Saturday daytime calls.

Telephone companies will adopt a more precise and again largely cost-saving step for customers. Distances between cities will be calculated taking into account the curvature of the earth. About ten per cent of the rates between Indiana points will increase five cents with most of the remainder being reduced.

The present ten cent charge added to the message charge for collect calls will be increased to 20 cents, but this will not apply on calls billed to telephone credit card members. The increase is needed to compensate for the extra operator time and billing procedure time which are increasing in cost over the years.

Q: What is colitis?
A: Colitis is an infection or inflammation of the inner lining of the colon or rectum, and parts of the large intestine.

Sometimes the infection or inflammation also involves the junction of the small and large intestines. This condition is called ileocolitis.

Q: What are the causes of colitis?
A: There are many causes of this condition. Parasites of amoebic dysentery, viruses, bacteria, long-standing constipation or severe emotional strain may irritate the colon and produce this inflammation.

Q: What is meant by an "irritable colon"?
A: Unfortunately, patients often use this term incorrectly to explain every kind of intestinal upset. Actually, the term refers to a sensitive colon which tends to become easily irritated, usually by prolonged mental stress and anxiety.

The symptoms are so varied and resemble so closely those of many other intestinal conditions, that only a physician can make the technical diagnosis of "irritable colon."

Q: Is ulcerative colitis the same as colitis?
A: Ulcerative colitis means that there are, in addition, ulcers, or breaks, in the tissue which lines the colon. These breaks in the delicate tissue expose it to invasion by germs.

This form of colitis is the one most closely associated with emotional pressures and tensions.

Sometimes ulcerative colitis can be a chronic condition. The symptoms may completely disappear even for years, and then suddenly recur during a period of severe emotional stress.

It is said that patients with ulcerative colitis are usually highly tense, easily discouraged and apprehensive.

Q: How is the diagnosis of ulcerative colitis definitely made?
A: The diagnosis can be presumed by the physician from the history of the patient's complaints.

Microscopic examination of the stool for blood and mucus is very important. X-ray examination of the lining of the large intestine can reveal evidence that confirms the diagnosis. The lining of the intestine can be inspected minutely through a painless examination with a proctoscope. Cultures of the mucus membrane which line the intestine may also contribute valuable information.

Q: What is the treatment for ulcerative colitis?
A: The disease is bombarded from many angles. Sulfa drugs, antibiotics, cortisone, strict diet and vitamin supplements may all be used, depending on the judgment of the physician.

Surgery is sometimes used in particular cases.

Psychological support and sympathetic understanding play a vital role in the ultimate recovery of the patient.

added to the message charge for collect calls will be increased to 20 cents, but this will not apply on calls billed to telephone credit card members. The increase is needed to compensate for the extra operator time and billing procedure time which are increasing in cost over the years.

The new tariff returns nighttime calls to the traditional three-minute initial interval now applied to calls at other times of the day and night. However, the maximum for the three minute calls is far less—40 cents or less after 8 p. m. and Sunday. For calls between points less than 172 miles apart, the charge will be even less.

PATTERNS OF SPRING FASHION

The pattern of fashion, as it shapes up for spring, is slim lines, light, bright colors, and above all a youthful look.

The big new favorite is the cutaway jacket or vest, showing its young ideas in its U-shaped neckline and narrow rounded collar. The cutaway forms a demure but flirtatious cover-up for the slim, trim shift—still the favorite dress shape among young fashionables, although the A-line dress or skirt is still going strong.

These trends can be seen in the new McCall's patterns. Practically an entire spring wardrobe is itself in McCall's Pattern 7704. From this one pattern package, the home sewer can get a cutaway jacket or vest, an easy shift dress, a hip-skimming sleeveless blouse, and a classic A-line skirt.

You can make Pattern 7704 even more versatile, suggests McCall's, by using it to create both a spring and a summer wardrobe; you do this by varying the materials you use. Start out with lightweight wools, tweeds and flannels, suitable for early spring wear. As days grow warmer, use the #7704 separates patterns to shape cool outfits of cotton pique and linen.

**THREE IN RACE TO BE

**NORTHERN LIBERALS TAKE
A LONG LOOK AT LEADER**

By HENRY CATHCART
Central Press Washington Writer

WASHINGTON—The way things are organized in the U. S. Senate, the majority whip is a position of power exceeded only by the majority leader. He is the No. 2 man in floor leadership for the Democrats and as such is a principal spokesman for the Johnson administration in the upper body.

It is somewhat strange, therefore, that a three-way contest has developed for the position and that the probable winner could be the senator from a state that cast its electoral votes for Barry Goldwater. It is even stranger that the senator in question should have a long record of opposition to civil rights and to foreign aid, two keystones of the Johnson administration.

The Senator is Russell B. Long, son of the late Huey Long. Barring the two aforementioned subjects, Long is generally classified as a liberal and a supporter of Democratic administrations' legislative requests.

He has the support of some leading Senate liberals, and, of course, the backing of most of his Southern colleagues. But many of the Northern liberal senators, whose ranks were strengthened in the elections, are concerned. They fear that parts of the program they stand for, already being pruned because of necessary administration economy considerations, will be hurt further by half-hearted support of one of their own chosen leaders.

● **OLD JOKE NOT TOO FUNNY**—We've all heard the old joke: "Save your Confederate money, boys, the South will rise again" and other variations on the theme of the worthlessness of Southern paper money issued during the Civil War. Well, it may not be so funny after all.

There's a ready market for the "worthless" paper stuff on the part of collectors, with values based on the rarity of the currency, its condition and whether or not it has been stamped "counterfeit."

Collectors will pay as high as \$850 for a very rare \$500 note printed in 1861 when the Confederate capital was at Montgomery, Ala. They'll pay about 50 cents for the much more plentiful \$10 notes in good condition issued in 1864.

So, those of you who have been saving the stuff as a souvenir or curio better take another look. Dealers in rare coins, stamps and the like can be helpful. At least, they'll be able to give you an idea of the value of any of the "worthless" Southern bills you may have stashed away.

● **HOW'S THAT AGAIN?**—The profusion of new nations gaining their independence in Africa is bewildering to anyone who tries diligently to keep up with world affairs. It may be comforting to know that this bewilderingment is shared in high official places.

**Troops Rescue
White Hostages**

LEOPOLDVILLE UPI — Congolese troops today rescued at least 120 white hostages from the rebels today at the northeastern town of Wamba, army sources reported.

Survivors claimed that "about 10 whites" were killed and eaten by the rebels on Christmas Day, reliable sources reported.

There was no immediate confirmation of the reports.

Army sources said a Congolese army column led by white mercenaries reached Wamba, 240 miles by road northeast of Stanleyville, this morning. These sources said 120 whites were rescued. But other sources put the figure at "between 130 and 150."

Rescue planes were rushed to the nearest airstrip to fly the liberated whites out to Leopoldville.

**Veep-Elect Gives
Up Senate Seat**

WASHINGTON UPI — Vice President-elect Hubert H. Humphrey resigned his Senate seat today to permit the appointment of his Democratic successor, Minnesota Atty. Gen. Walter F. Mondale, a few days before Congress convenes.

Humphrey, in a letter to Gov. Karl F. Rolivagg dated Dec. 23, made his resignation as senator effective at the "close of business" today. He said he was doing so "to permit the appointment of a junior senator from

Minnesota on or after Dec. 30, 1964."

The resignation action will enable Mondale to obtain a day or two seniority of Senate service which often proves valuable later in committee assignments.

Newly elected senators otherwise take their oaths of office and have their terms dated from the day the new Congress convenes, next Monday, Jan. 4.

**Woman Latest
Traffic Victim**

By United Press International

An Indianapolis woman today became the third pedestrian to be killed in Indiana traffic in the last two days, and the state's 1964 fatality toll climbed to 1,385 compared with 1,313 a year ago.

Mrs. Anna Sabo, 78, was taking a walk to get some fresh air an hour before daybreak when she was hit by a car driven by William E. Rodman, 28, Indianapolis, on a road on the Indianapolis south side.

**Hope To Settle
Paper Strike**

TERRE HAUTE UPI—Hope-

ful that he arrived of the new year will bring fresh efforts to settle a 68-day strike of four unions against Terre Haute's two daily newspapers, a federal mediator has called for more negotiations next week.

The strike over wages started Oct. 22 against the Terre Haute Tribune, an afternoon paper, and the Terre Haute Star, a morning newspaper, both published in the same plant by the Tribune-Star Publishing Co. Neither paper has published since the strike began.

Arthur Ingles, the federal mediator, indicated officials for the company and the printers, mailers, editorial employees and stereotypers unions would be called to at least two meetings during the week in an effort to bring about a settlement of the dispute.
